

✓ TRIED + TRUE

Stefan and White Diamond Video did a fabulous job on our wedding day. Stefan was extremely easy to work with prior to our wedding day and couldn't have been nicer on the actual day. You would never have even known he was there, but he was able to capture such amazing moments for us.

The final edited video and highlight video were fabulous and we honestly couldn't have asked for a better videographer!

We would HIGHLY recommend Stefan Gil with White Diamond Video to anyone looking for a wedding videographer! My then fiance and I knew having our day captured by video was important to us because we knew the day would be a big blur and we wanted to have something that we could watch for years to come to remind us what an incredible day it was. Stefan completely exceeded our expectations. When I first met with him, I told him what was important to us and what we wanted to have captured. From the minute he came to my house he helped make us all feel at complete ease. He was extremely creative in telling us how to act and pose that he knew would make the video come out great while

We absolutely loved the wedding video! It's amazing how fast the day goes by and it was wonderful to see the intricacies of the day captured! Thank you for all your hard work

Amazing!!!! I knew from the first meeting with Stefan that he would be the perfect one to do our wedding. We discussed a timeline days before the event and he was on time with everything. Very professional and worked extremely well with our photographer. The highlights video was amazing. I have watched it over a hundred times already because I can't stop showing everyone!

When we received the videos it came in the perfect date night package with popcorn and movie tickets. I laughed and cried and laughed some more. He was able to capture every perfect moment and I couldn't be happier!

I felt like I already knew him and on wedding day HE WAS SOOOOOO GREAT!!!! and his assistant was great as well. They knew had to get the attention of the bridal party and get things done quick.
